

424A.02 Volunteer firefighters; service pensions.

Subd. 7. **Deferred service pensions.** (a) A member of a relief association is entitled to a deferred service pension if the member:

(1) has completed the lesser of the minimum period of active service with the fire department specified in the bylaws or 20 years of active service with the fire department;

(2) has completed at least five years of active membership in the relief association; and

(3) separates from active service and membership before reaching age 50 or the minimum age for retirement and commencement of a service pension specified in the bylaws governing the relief association if that age is greater than age 50.

(b) The deferred service pension is payable when the former member reaches age 50, or the minimum age specified in the bylaws governing the relief association if that age is greater than age 50, and when the former member makes a valid written application.

(c) A relief association that provides a lump sum service pension governed by subdivision 3 may, when its governing bylaws so provide, pay interest on the deferred lump sum service pension during the period of deferral. If provided for in the bylaws, interest must be paid in one of the following manners:

(1) at the investment performance rate actually earned on that portion of the assets if the deferred benefit amount is invested by the relief association in a separate account established and maintained by the relief association or if the deferred benefit amount is invested in a separate investment vehicle held by the relief association;

(2) at an interest rate of up to five percent, compounded annually, as set by the board of directors and approved as provided in subdivision 10; or

(3) at a rate equal to the actual time weighted total rate of return investment performance of the special fund as reported by the Office of the State Auditor under section [356.219](#), up to five percent, compounded annually, and applied consistently for all deferred service pensioners.

A relief association may not use the method provided for in clause (3), until it has modified its bylaws to be consistent with that clause.

(d) Interest under paragraph (c), clause (2) or (3), is payable from the first day of the month next following the date on which the municipality has approved the deferred service pension interest rate established by the board of trustees or from the first day of the month next following the date on which the member separated from active fire department service and relief association membership, whichever is later, to the last day of the month immediately before the month in which the deferred member becomes

eligible to begin receipt of the service pension and applies for the deferred service pension.

(e) A relief association that provides a defined contribution service pension may, if its governing bylaws so provide, credit interest or additional investment performance on the deferred lump sum service pension during the period of deferral. If provided for in the bylaws, the interest must be paid in one of the manners specified in paragraph (c) or alternatively the relief association may credit any investment return on the assets of the special fund of the defined contribution volunteer firefighter relief association in proportion to the share of the assets of the special fund to the credit of each individual deferred member account through the date on which the investment return is recognized by and credited to the special fund.

(f) For a deferred service pension that is transferred to a separate account established and maintained by the relief association or separate investment vehicle held by the relief association, the deferred member bears the full investment risk subsequent to transfer and in calculating the accrued liability of the volunteer firefighters relief association that pays a lump sum service pension, the accrued liability for deferred service pensions is equal to the separate relief association account balance or the fair market value of the separate investment vehicle held by the relief association.

(g) The deferred service pension is governed by and must be calculated under the general statute, special law, relief association articles of incorporation, and relief association bylaw provisions applicable on the date on which the member separated from active service with the fire department and active membership in the relief association.
